

# BOLT-ON EXTERNAL FALL ARREST SYSTEM ACCESSORIES

## WORK OUTSIDE THE PLATFORM AT HEIGHT

When your work requires you to exit the platform above elevation, JLG helps keep you safe and mobile with our Bolt-On External Fall Arrest System. This system uses a cable that allows the operator to leave the platform and move freely without detaching the safety harness. This helps keep the operator tethered to the platform at all times.

### Features and Benefits:

- Available for a variety of boom lift applications, including aviation and steel erection
- Allows workers to walk a maximum of 6 ft beyond the platform
- Enhances worker protection
- Easily interchangeable between JLG machines
- Designed for many 36" x 72" and 36" x 96" wide platforms with the swing gate option

### How To Choose Your Bolt-On External Fall Arrest System:

- Refer to **STEP 1** and Follow the Instructions Outlined in **RED**

# STEP 1: BOLT-ON FALL ARREST AND MACHINE CAPABILITY IDENTIFICATION CHART

Refer to the chart below to determine if machine is capable of being fitted with a Bolt-On External Fall Arrest System. If machine does not fall within the below serial number ranges, STOP, it **cannot** be optioned with a Bolt-On External Fall Arrest System. Note: Kits applicable in ANSI, ANSI Export, CSA, Japan, Australia and China specification regions unless otherwise noted.

JLG Model	Serial Breaks	
	36 in x 72 in [91 cm x 183 cm]	36 in x 96 in [91 cm x 244 cm]

### Proceed to STEP 2.

If machine does not fall within the serial number ranges listed in  
 STEP 1: BOLT-ON EXTERNAL FALL ARREST AND MACHINE CAPABILITY IDENTIFICATION CHART, it cannot be optioned with a  
 Bolt-On External Fall Arrest System.

## STEP 2: IDENTIFY PLATFORM

Refer to below pictures to determine platform handrail style that machine is equipped with.

Platform must have Hand Rail design (B); shown below. Bolt-On External Fall Arrest System WILL NOT mount on platforms with Hand Rail design (A); shown below. If you have design (A), you must purchase the most current 36 in (91 cm) wide side entry platform available for your machine.

Platform must be equipped with Left Side Swing Gate option. Not compatible with platforms having Left Side Drop Bar entry gate. Machines with a Left Side Drop Bar entry gate require the purchase of the Swing Gate Conversion Kit.

For 36" Platforms Only

Platform Handrail Style A	Requires purchase of new platform	Swing Gate Platform P/N to replace Platform A	
		6 ft [72 in] [183 cm]	8 ft [96 in] [244 cm]
		1001186384S	1001186383S

Platform Handrail Style B	Determine Entry Gate Style	Drop Bar	Swing Gate
		Requires purchase of Swing Gate Conversion Kit: P/N 1001142505	No additional purchase required

For 30" Platforms Only

Platform with Drop Bar	Requires purchase of new platform	Swing Gate Platform P/N to replace Drop Bar Platform		
		48 in [4 ft] [121 cm]	60 in [5 ft] [152 cm]	72 in [6 ft] [183 cm]
		1001186387S	1001186386S	1001186385S

Refer to STEP 3 for correct kit part number

If machine does not fall within the serial number ranges listed in STEP 1: BOLT-ON EXTERNAL FALL ARREST AND MACHINE CAPABILITY IDENTIFICATION CHART, it cannot be optioned with a Bolt-On External Fall Arrest System.

## STEP 3: CHOOSE YOUR FALL ARREST PLATFORM

Choose your Bolt-On External Fall Arrest Kit according to the chart below.

Platform Size	Fall Arrest Kit P/N
36 in x 72 in [91 cm x 183 cm]	1001237883
36 in x 96 in [91 cm x 244 cm]	1001237882
30 in x 48 in [76 cm x 121 cm]	1001269630
30 in x 60 in [76 cm x 152 cm]	1001269629
30 in x 72 in [76 cm x 183 cm]	1001269631

If machine does not fall within the serial number ranges listed in STEP 1: BOLT-ON EXTERNAL FALL ARREST AND MACHINE CAPABILITY IDENTIFICATION CHART, it cannot be optioned with a Bolt-On External Fall Arrest System.
